

UNIT I  
INTRODUCING EARTH

Earth's Place in Space  
Earth in Evolution  
Earth and the Planets

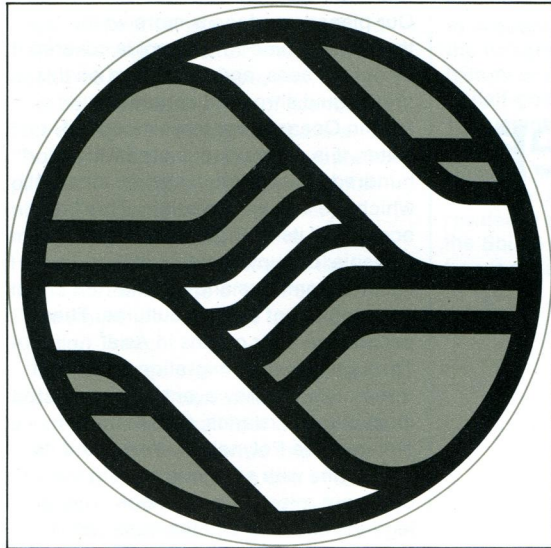

UNIT II  
ANATOMY OF THE EARTH

Earth's Materials  
Earth's Interior  
Atmosphere and Hydrosphere

UNIT III  
DYNAMIC EARTH

Sea-Floor Spreading and Continental Drift  
Plate Tectonics and Structural Geology  
Petrology and Plate Tectonics  
Sea-Floor Morphology

UNIT IV  
SURFACE ALTERATION

Weathering  
Erosion, Transport, and Sedimentation  
Abyssal Sedimentation

UNIT V  
FOSSIL RECORD

Paleoenvironments and the Evolution of Life  
Paleontology

UNIT VI  
CHANGE AND GEOLOGIC TIME

Geologic Time  
History of Climate  
Population Pressure and Earth Resources
