Del Mar, CA 92014

Dear Payson:

I have heard about the tremendous time and effort you put into your visual presentation at the symposium a couple of weeks ago. And the creative energy and imagination you invested was obvious. It was a tremendous demonstration of putting high technology to its highest possible use - combining art and computers to educate influential decision-makers about one of the most serious issues facing humanity.

Thank you for contributing so much of your talent.

Sincerely,

Robert Redford
